

Dear Student,

Have you ever wondered **Why School Sucks?**

It's not your fault and not your teachers fault!

Instead, for the past 350+ years America's schools have put the cart before the horse

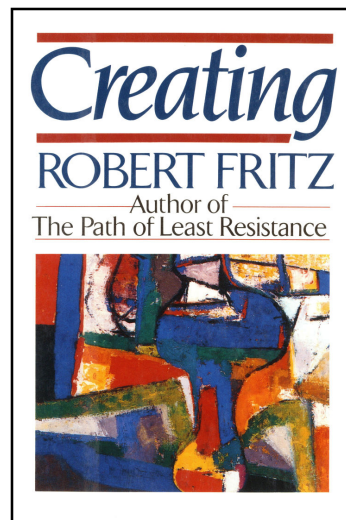

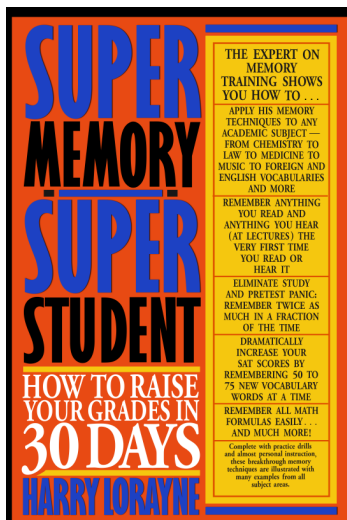

Teachers have *told* students **What-To-Memorize** before *teaching* students **How-To-Memorize**.

You were *told* to memorize the 50 State Capitols without first being *taught* methods, techniques, and strategies of **How-To-Memorize**.

OUR DISCOVERY: The method that Harry Lorayne teaches for Memorizing is the same method Robert Fritz teaches for Creating.

- #1. For your current Education success, learn **How-To-Memorize!**
- #2. For your future Career success, learn **How-To-Create!**

What's the cost to receive instruction and personal tutoring? **Free!**
